FROM COCKTAIL HOUR TO THE DANCE FLOOR.

The Sonoctave Live Sax Reception Experience

Live saxophone woven through your wedding reception, planned directly with you and your DJ. From **$1,950**, with travel included in the core regional markets.

Your Night, Planned

One dedicated planning session covers your atmosphere, favorite songs and artists, do-not-play choices, reception timeline, signature moments and technical requirements. A written Event Plan confirms the performance flow.

Your Moments

Up to five moment songs receive specific advance preparation: an entrance, first-dance feature, serenade, dedication, cultural moment, surprise appearance or late-night return. Dance-floor music also draws from Liam's wider repertoire and your DJ's direction.

In the Room

Professional wireless performance among your guests, cocktail hour and featured live appearances within up to six consecutive guest-facing hours. The exact number, timing and length of appearances are agreed in your Event Plan.

Built Around Your DJ

Direct coordination on cues, transitions, entrances, announcements, connections and soundcheck. Your DJ remains in control of the reception music and emceeing. Sonoctave does not provide the DJ.

THE MUSIC, THE TIMING, THE FIT

An evening with room to breathe.

The reception coverage window

Up to six consecutive guest-facing hours, from the agreed cocktail-hour or reception start through the final planned saxophone appearance. Load-in, setup, soundcheck and teardown sit outside this window. Coverage beyond six hours requires an advance custom quote.

A possible flow

Cocktail hour: included live music while guests arrive and mingle.
Dinner and toasts: a natural reset while the DJ carries the music; light dinner sax or a serenade can be planned.
Signature moments and dance floor: prepared features and live appearances coordinated with the DJ. Two to three featured blocks are a planning example, not a fixed set-count promise. A late-night return fits within the agreed coverage.

Hear Your Song Before the Wedding

After your planning session **and** receipt of the finalized song choice and preferences, Liam delivers one personalized, one-minute saxophone preview over an appropriate instrumental or song source, as a private digital audio file, **within 48 hours**. It is not a full-length recording or commercial studio master.

The Song Fit Promise

If saxophone does not improve your selected moment, the live feature can move to another prepared song **at no additional charge before your Event Plan is finalized**. Another recorded preview, if requested, may be created on the normal planning timeline; a replacement does not automatically carry another 48-hour deadline.

THE PRACTICAL DETAILS

Everything agreed before the celebration.

Sound and professional delivery

Liam brings saxophone, a professional wireless microphone and receiver, standard connections, preparation, setup and soundcheck, appropriate attire and teardown. Independent JBL sound supports suitable cocktail-hour or smaller spaces when agreed. Venue documentation and liability insurance are arranged for the event; coverage is confirmed for its date.

Your DJ or venue provides the primary reception PA appropriate for your room and guest count, agreed inputs, continuous music between live appearances and emceeing. Additional production is identified and quoted before booking.

Regional travel

Included in Eau Claire and the Chippewa Valley, Twin Cities metro, La Crosse, Madison and greater Milwaukee. Other Midwest destinations receive one flat travel quote in advance.

Want ceremony music too?

Optional Live Ceremony Add-On from **$750**: planning and cues, processional, a key ceremony moment when requested, recessional, up to three prepared selections, soundcheck and planner/officiant/venue coordination. Same-property transition into the reception is included. Separate venues or unusual production receive a custom quote. Ceremony + Reception starts at **$2,700**.

Reserve your date

A **signed agreement and $600 retainer** reserve your date. The balance is due **30 days before the wedding**. Your written quote and agreement confirm event scope and total. An inquiry alone does not reserve a date.

The standard experience does not include DJ service, emceeing, continuous or unlimited saxophone, unlimited custom-song preparation, event videography, automatic extended coverage or ceremony music without the add-on.
